

OEL 87-65

18 January 1965

MEMORANDUM FOR : Chief, GSD
Chief, ASD
Chief, SMS
Chief, QRB

SUBJECT : Contract Placement

25X1A It has become apparent by some of our recent work that we have not provided the Office of Logistics adequate information with which to place contracts. AD/OEL directed this morning that definite specifications be provided to the Office of Logistics and that DAD/S&D be responsible for this action. Accordingly, all future items presented for Program Review Board approval must indicate in detail the requirements and the specifications by which these requirements will be satisfied. Although the desirability of this has been explicit since the Program Review Board was started and is indicated in guidelines prepared by [REDACTED] this area has not been carefully followed. It is believed that this action which may require more preparation on the part of the project officer, will result in expedited contractual procedures.

25X1A
